

INTRODUCING THE ALL-NEW

DC-1

Our **NEW HIGH-SPEED DRILL CENTER**,
with a **TURRET-STYLE** tool changer
and rear chip discharge, is here.

Maximize your shop space for **HIGH-VOLUME PRODUCTION**

The DC-1 is a traditional-style drill/tap machine with a 10,000-rpm BT30 spindle and high-speed turret-style tool changer, to minimize cut-to-cut times and shorten cycle times. Choose the optional 15,000-rpm or 20,000-rpm spindle to cut production times even further.

The compact footprint and rear chip discharge of the DC-1 allow machines to be placed side-by-side to maximize floor space, while providing easy side access for automation systems. The machine's one-piece, extra-wide base provides stable support for heavier parts and fixtures, and the wide-stance triangulated column increases overall rigidity.

Unlock 4th- and 5th-axis productivity with **EASY ROTARY INTEGRATION**

Haas rotaries have been the industry standard for more than 40 years, and all Haas rotary products offer seamless integration with Haas machines. Simply add the optional 4th- and 5th-axis drives to the DC-1 for easy, plug-and-play connectivity to Haas single- and dual-axis rotaries.

23.6" x 17.7" x 13" (xyz)
600 x 450 x 330 mm

FEATURES AND OPTIONS

- 10,000-rpm BT30 spindle (15,000-rpm or 20,000-rpm optional)
- High-speed turret-style tool changer, 21 tools
- Available auto window for easy automation
- Rear chip discharge with front chip flush
- Compact footprint

AUTOMATION READY

Take the DC-1's productivity to the next level by adding one of our fully integrated automation systems – like the Haas HC10 Cobot, or our Compact Automatic Parts Loader. These systems operate seamlessly from the Haas control for reliable, unattended operation.

300,000 CONTROLS CAN'T BE WRONG.

Scan this QR Code to discover why the Haas Control is the most user-friendly CNC control in the industry.

Designed and built in-house, the Haas control is optimized specifically for Haas machine tools. It is fast, smart, and powerful, with a simple user interface and consistent, intuitive navigation that make it easy to learn and use. With more than 300,000 Haas controls in use worldwide, it clearly is an industry standard.

Features include:

- Touchscreen Interface
- Ethernet Interface
- 1 GB Program Memory
- Safe Run
- Dedicated Keypad
- USB Port
- Power-Failure Detection
- Surge Protection
- One-Button Features
- M130 Media Player
- HaasConnect Mobile Monitoring
- HaasDrop Wireless File Transfer
- Multi-Function Jog Handle
- Advanced Tool Management
- WiFi Connectivity
- 15" Color LCD Screen
