

HAAS AUTOMATION, INC.

ROBOTIC PALLET LOADER

Scaleable, Affordable Pallet Loading Solution

INCLUDES the Haas 25 kg capacity robotic loading station, light curtain, pallet rack, and 3 zero point pallets. Requires the Zero Point Ready option on the machine. Includes auto window and remote jog handle when purchased with a machine.

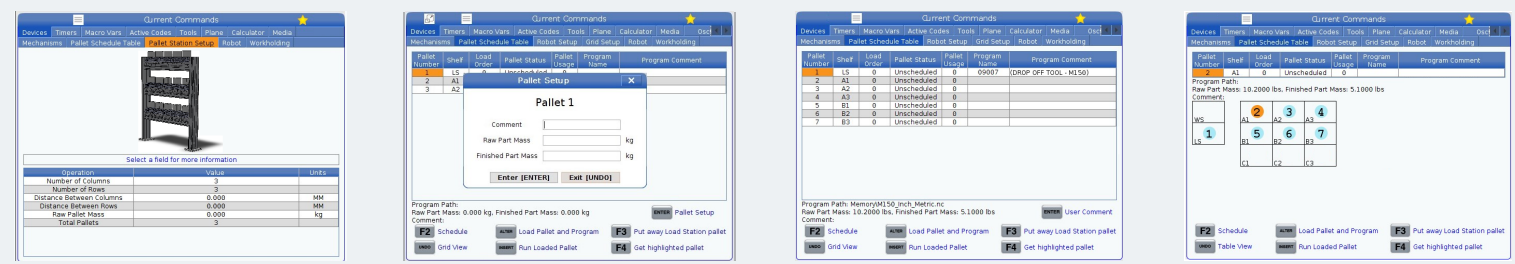

PRODUCTIVITY ADD-ONS

Maximize production with these add-on features from Haas.

WIRELESS PROBING SYSTEM CHIP REMOVAL 70-POCKET TOOL CHANGER AUTOMATIC WORKHOLDING

SEAMLESS INTEGRATION, SET UP & CUSTOMIZATION

CUSTOMIZATION IS STANDARD

Customize the layout of the pallet station grid to optimize your project. If your needs change, so can the pallet station.

ASSIGN PART MASS

The only set up needed from part to part is entering the raw/ finished part mass per pallet.

PALLET SCHEDULER

The Pallet Schedule Table allows the user to be able to prioritize pallet frequency and priority for loading and unloading of the pallets.

TOUCHSCREEN GRID VIEW

The grid view is fully touch capable, making it easier to select a pallet that corresponds to what the user sees on the shelf.

FEATURE LIST:

- All-inclusive design, with plug-and-play capabilities to Haas UMCs, and small and medium VMCs
- All set up and operation are done through the Haas control and remote jog handle
- Includes light curtain
- Includes load station, pallet rack, and 3 zero point pallets; additional pallets available
- Expandable to 15 pallets
