Details: 5-axis machining is an effective means to reduce setups and increase accuracy for multi-sided and complex parts. The Haas UMC Series universal machining centers are cost-effective solutions for 3+2 machining and simultaneous 5-axis machining. The UMC-750SS has an integrated high-speed, dual-axis trunnion table with a 500 mm diameter platter that features standard T-slots and a precision pilot bore for fixturing versatility. The trunnion provides +110 and -35 degrees of tilt and 360 degrees of rotation to provide excellent tool clearance and large part capacity.
